PEIWEN JIA

Phone: +86 15617753826 | Email: jpw2022@stu.pku.edu.cn | Homepage: jpw2022.github.io

EDUCATION

- **PhD in Economics (Statistics)** 2022.09 – 2027.07 (Expected)

  Guanghua School of Management, Peking University

  Advisor: Xiaojun Song

- **BSc in Statistics** 2018.09 – 2022.06

  School of Statistics, Beijing Normal University

RESEARCH INTERESTS

Hypothesis Testing; Nonparametric and Semiparametric Methods; Causal Inference

PUBLICATIONS

- **Peiwen Jia** and Xiaojun Song. "Symmetrized smooth test for the equality of distributions." *Economics Letters* (2026): 113202.

WORKING PAPERS

- **Peiwen Jia**, Xiaojun Song and Zhijie Xiao. "Two-sample smooth tests for location-scale transformations." Revise and Resubmit at *Econometric Theory*.
- **Peiwen Jia**, Xiaojun Song and Zhijie Xiao. "Smooth tests for the equality of conditional distributions." Revise and Resubmit at *Journal of Business & Economic Statistics*.
- **Peiwen Jia**, Xiaojun Song and Haoyu Wei. "Data-driven smooth tests for normality in ANOVA when the number of groups is large." Revise and Resubmit at *Journal of Statistical Planning and Inference*.
- **Peiwen Jia**, Xiaojun Song and Zhijie Xiao. "Data-driven smooth test for the equality of distributions." Revise and Resubmit at *Econometric Reviews*.
- O-Chia Chuang, **Peiwen Jia** and Xiaojun Song (in alphabetic order). "On data-driven smooth tests for paired populations." Submitted to *Oxford Bulletin of Economics and Statistics*.

WORK IN PROGRESS

- **Peiwen Jia**, Xiaojun Song and Mingfeng Zhan. "Propensity score of propensity score methods in estimating treatment effects."
- **Peiwen Jia** and Xiaojun Song. "On smooth tests for conditional independence."

RESEARCH ASSISTANT

- "Efficient difference-in-differences and event study estimators". 2024.07 – 2024.10

  - Simulation studies for double machine learning estimators in multi-period difference-in-differences models

  Instructor: Haitian Xie

Conferences and Presentations

- **Statistics Seminar, School of Statistics, Beijing Normal University** 2026.11
  - Invited talk on "On data-driven smooth tests for paired populations"
- **The 11th Meeting of Young Econometricans in Asia-Pacific Regions** 2026.10
  - Contributed talk on "On data-driven smooth tests for paired populations"
- **The 3rd Joint Conference on Statistics and Data Science in China** 2025.07
  - Contributed talk on "Data-driven smooth test for the equality of distributions"
- **International Chinese Statistical Association 2025 China Conference** 2025.06
  - Contributed talk on "Smooth tests for normality in ANOVA"
- **The 2nd Joint Conference on Statistics and Data Science in China** 2024.07
  - Contributed talk on "Smooth tests for the equality of conditional distributions"

Teaching Experience

Teaching Assistant, Guanghua School of Management, Peking University

- **Causal Inference** (PhD level; *Instructor: Haitian Xie*) 2026 Spring
- **Machine Learning Theory** (PhD level; *Instructor: Zhouyu Shen*) 2026 Spring
- **Special Topics on Advanced Econometrics** (PhD level; *Instructor: Yundong Tu*) 2025 Spring
- **Stochastic Analysis and Applications** 2025 Spring, 2024 Spring
  (Undergraduate- and Graduate-level; *Instructor: Chenxu Li*)
- **Probability and Statistics** (Undergraduate level; *Instructor: Xiaojun Song*) 2024 Spring, 2023 Spring

Honors and Awards

- Lingrui Scholarship, Guanghua School of Management, Peking University 2026.04
- Award for Contribution in Student Organizations, Peking University 2025.12
- Excellence in Teaching Assistantship, Guanghua School of Management, Peking University
  2025.11, 2024.11

Skills

- **Languages** : Chinese (native), English (fluent)
- **Programming**: Python, MATLAB, and R
